PROFILE

Junior UI/UX Designer with a Bachelor's and Master's degree in Graphic Design, focused on Web Design and digital interfaces. Experience designing responsive web pages in Figma, from content structure and wireframing through to UI design and prototyping. Complementary skills in HTML, CSS, and JavaScript, useful for collaborating with development teams and understanding the implementation phase. Seeking opportunities in UI/UX Design, Web Design, digital Graphic Design, and junior front-end/web development, particularly hybrid roles that combine interface design and programming skills.

EXPERIENCE

UI/UX & Web Designer | Hybrid

BeDigit | January 2026 - August 2026 | Italy

(January–June: full-time internship; since July: part-time collaboration.)

- Designed web experiences and interfaces in Figma, from needs analysis and information architecture to user flows, wireframes, prototypes, and UI design.
- Optimised content structure and user experience according to project objectives.
- Collaborated with the development team during implementation and supported the creation of WordPress websites.

Graphic Designer & UI/UX Designer | Remote

Freelance | June 2024 - Present | Colombia

- I develop graphic design, web design and UI/UX projects, from visual identity and content structure to interface design and basic front-end implementation, tailored to each client's goals.
